TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, PHP
- Web Technologies: HTML5, CSS, ReactJS, NodeJS, Django
- Mobile Development: React Native, Ionic React
- Database Management: MySQL, Microsoft SQL Server, MongoDB
- Tools: Git, Jira, Jenkins
- Operating Systems: Windows, Linux

EDUCATION

Bachelor's Degree in Electronics and Computer Engineering (Hons)

Malawi University of Business and Applied Sciences (MUBAS) - 2022

Certificate In MYSQL

Great Learning Academy - 2023

Certificate in React

Great Learning Academy - 2023

EXPERIENCE

Software Developer

action medeor Medical Aid Organization (Jan 2025 - Present)

- Contributing to the development of a Health Information System (HIS) using **Next.js (frontend)** and **.NET (backend)**, with primary focus on frontend implementation.
- Designed and implemented responsive, user-friendly interfaces to support healthcare data management workflows.
- Implemented biometric authentication by integrating a Mantra fingerprint scanner into the Next.js-based HIS, enabling secure patient and user identification.
- Integrated the fingerprint capture workflow with backend APIs for biometric verification and data validation.
- Developed a **mobile stock count application using React Native**, replacing a manual paper-based process and significantly improving accuracy and efficiency.
- Collaborated with backend developers and stakeholders to translate system requirements into functional UI components.
- Integrated frontend components with backend services and ensured reliable data handling and validation.

Software Developer

BEAN Medical Center (Nov 2023 - Aug 2024)

- Led the development of a comprehensive clinic management system using React for the frontend and MySQL for the database.
- Designed and implemented a user-friendly interface for managing patient records, appointments, and medical histories.
- Integrated secure authentication and authorization mechanisms to ensure data privacy and security compliance.
- Developed reporting functionalities to analyze clinic performance metrics, leading to a 15% increase in operational efficiency.
- Collaborated with medical professionals to incorporate industry best practices and ensure the system met regulatory requirements.
- Conducted extensive testing and debugging to ensure the system's reliability and performance under various scenarios.

Mobile App Developer (Remote-Part-Time)

Yakumudzi Investments / Aug 2023 – November 2023

- Design, develop, and maintain mobile applications for iOS and/or Android platforms.
- Write clean, maintainable, and efficient code in React Native.
- Ensure the app's performance and user experience are consistent across different platforms.
- Collaborate with designers to implement user interface (UI) and user experience (UX) designs into
- Conduct thorough testing, including unit testing and integration testing, to identify and fix bugs and issues.
- Integrate with external APIs or web services to fetch data or enable specific functionalities.

Assistant Junior Software Developer

Malawi Liverpool Wellcome Trust / Jan 2021 – July 2023

- Designing algorithms and flowcharts.
- Designing, developing, coding and testing of systems.
- Intranet Site Pages development using SharePoint.
- Produce clean, efficient code based on specifications.
- Verify and deploy programs and systems.
- Troubleshoot, debug and upgrade existing software.

Key Accomplishments

- Led development of a **clinic management system**, improving operational efficiency by **15%** through workflow automation.
- Implemented **secure authentication and role-based access control** to protect sensitive healthcare data.
- Built **reporting and analytics features** to support performance monitoring and data-driven decisions.
- Developed and maintained **scalable, maintainable application code** aligned with health IT best practices.
- Collaborated with clinical and technical teams to deliver **reliable, user-centered digital health solutions**.

REFEREES

Mr. Elvis Moyo

Community Liaison Manager/ Yakumudzi CEO

Sovereign Services Limited

P.O Box 30523 CC3, Lilongwe
